THE MISSION OF BENCH ELEMENTARY SCHOOL

Merritt Bench Elementary School's Mission

We, the students, staff and parents of Merritt Bench Elementary School, are committed to making our time here a positive experience by working and learning together with respect for ourselves and others, striving to do our best at all that we do.

Our Goal

In our school, students will work at becoming successful learners who demonstrate respect for others and a commitment to achieving their best in every aspect of their lives.

Key Words and Value Statements:

OUR	Students need to feel that they belong and that their school cares for them. Merritt Bench is a vital part of this community and all of us who are involved in the school share responsibility for the health of our neighbourhood
WORK	Without effort, nothing is accomplished. Active learning is a cornerstone of education.
SUCCESSFUL	Success leads to a positive attitude towards ourselves and the activities that we engage in. It motivates individuals to reach higher. Self-esteem is a prerequisite for future success.
RESPECT	As we learn to respect and care for others, we learn to respect and care for both our world and for ourselves.
COMMITMENT	We put our energy and our resources into reaching our goals.
ACHIEVING	The achievements of our students are evidence of the success of the school.

**Our task as staff, parents and community members,
is to make this goal a reality for every student.**

SPECIFIC CURRICULAR GOALS

Inquiry 1 <i>Inquiry statements foster educator curiosity and help to focus priorities for improving student learning.</i>	To Improve Students' Literacy Skill
	1. Early Primary Staff's Question: Will implementing Joyful Literacy strategies/centres continue to help our vulnerable children succeed in literacy and thrive in school?
	2. Primary Staff's Question: Will explicit teaching of reading skills, through small Guided Reading groups move us closer to our goal of all students reading by the end of grade 3?
	3. Intermediate Staff's Question: Will teaching students to ask their own questions lead to them being skilled thinkers and self-directed, motivated, independent readers?
Inquiry 2	To Improve Students' Literacy Skill What are some ways to continue to build a Growth Mindset school culture at Merritt Bench Elementary?

Principal's Message

Welcome to the Merritt Bench Elementary School community. Our school consists of approximately 180 students, embracing a community atmosphere of mutual respect and support. We are here to work together with our students and their families to provide a safe and comfortable learning environment for all our learners. We recognize and respect the diversity of our students in terms of strengths, challenges and backgrounds. We believe our differences allow us to learn from each other and to grow in our appreciation for the quality diversity can bring to our community.

The staff at Merritt Bench Elementary is committed to providing a learning experience that meets the academic, social, emotional and physical needs of our students. Along with our commitment to academic achievement, we offer a range of extra-curricular opportunities in the areas of athletics, music and drama. We also focus on social responsibility through which students learn how to become good citizens.

Please take the time to read through this handbook to understand what we believe is essential to your child's success and our school community.

We look forward to a rewarding year of working with you and your child and value your contributions as members of our school.

INFORMATION FOR PARENTS AND STUDENTS

School Hours The warning bell rings at 8:55 and school starts at 9:00 sharp each morning. The children should arrive between 8:40 and 8:50. **Outside supervision does not start until 8:30.** Students should not be arriving at school before 8:30 unless attending an activity supervised by a staff member. After school we ask that students wishing to play on the school grounds check in at home first then return under the supervision of their parents. Supervision is limited to 15 minutes after the school day ends.

Attendance It is important that students attend school each day and arrive at school on time. However, please do not send your child to school if he or she is ill. Sending a child to school ill spreads infections and your own youngster takes longer to recover.

Safe Arrival Program We have a safe arrival program provided by our School. Please call the school's answering machine at **378-2528** to let us know if your child is going to be absent or late for any reason. The answering machine is on at all times. If your child is absent and you do not let us know, our secretary will call you or your emergency contact.

Late Arrivals Children who arrive late must report to the office so that we can record them as present. Teachers may require students who are late to make up time after school, at noon or at recess. Repeated tardiness or unexplained absences will be referred to the principal for action.

Recess Recess runs from 10:25 to 10:40 each morning.
All students are expected to go outside for fresh air and exercise.

Noon Hour Lunch is from 12:00 to 12:55. Afternoon classes begin at 1:00 pm.

Lunch Procedures Students stay at school for lunch unless they live nearby and have a parent at home to supervise. Please inform your child's teacher if your child will be going home for lunch on a daily basis or leaving occasionally. Those students who go home for lunch are to leave the grounds promptly and are not to return before 12:30 pm.

Students who eat lunch at school are not allowed to leave the grounds for any reason. If you have a specific reason for allowing your child to leave the grounds please send a note or call the school.

All students who are staying for lunch will be expected to bring a nutritious lunch from home. Students are given 20 minutes to eat lunch, then they help clean up and go outside for play. All students are expected to go outside after they eat and should dress according to the weather.

Food that is brought from home should be ready to eat. Make sure lunches do not contain items that are likely to spoil in the warm classrooms during the morning. Please ensure that lunches are **nutritious and nut free**. Also, remember to supply eating utensils, if needed.

Please note that there are those that suffer with allergies to nuts and as our goal is to support all students in our school, we ask parents to choose alternatives to nut products for snacks and lunches.

Supervision during lunch hour is provided by Noon Hour Supervisors. They are assisted by student monitors.

Eating lunch at school is a privilege which may be withdrawn. Please refer to the note under discipline for further details

Dismissal/After school The children are dismissed from school at 3:00 each afternoon. There is only 15 minutes of formal supervision of students to ensure safe leaving of the

school grounds. Students are expected to leave the school grounds promptly and report home. Students who are detained for any reason such as extra help will be asked to phone home to confirm their late arrival.

Parents should develop procedures for after school with their children. We expect that all children will inform a caregiver if there is any change in their routine.

Homework (Agenda) Books Homework books are an integral part of our school routine. Each day the students write in what they have for homework or any other additional reminders for themselves. Teachers and parent/guardians are expected to sign the book each day. Please feel free to use this book as a communication device with your child's teacher.

Online Communication Some teachers choose to use online programs to communicate with families and for homework assignments. Your student's teacher will contact you to provide this service through e-mail or to have you sign up for the program.

Telephone Access Students must ask their teacher for permission to use the phone. Play arrangements are not an acceptable reason to use the telephone.

Personal Cell phones /electronics Students are not permitted to use personal electronics at school unless they are under the direct supervision of a teacher.

TRAFFIC The cooperation of parents is requested in keeping the streets around the school safe for all children. The areas marked by yellow curbs are **No Stopping Zones**. It would be helpful if parents could arrange to drop off and to pick up children on Gillis Street by the community tennis courts to ease the traffic in our parking lot. Students are not permitted to walk or ride bikes through the parking lot area. **Please do not:**

- ❑ Let children out in the middle of the Grimmert Street
- ❑ Block the crosswalks on Grimmert Street when dropping off the children
- ❑ Stop to let children out in the front parking lot (between Grimmert St and the school Gym)
- ❑ **Speed through the parking lot at any time!**

SAFETY The safety of our students is very important to all of us. Parents can help us out by going over the following rules and procedures.

Please go over the route that your child takes to come to school and discuss where to go in case of danger. Walk with your child on the route that he or she takes to and from school. You should be certain that he or she is able to travel safely before you allow the child to walk to school. We encourage children to walk in small groups and not walk alone. Primary children should cross major streets only when you feel very comfortable that they can manage on their own.

If your child has your permission to ride a bike she or he **must** wear an approved helmet and have a strong bike lock. The school will not be responsible for lost or stolen bikes.

We discourage students from using skateboards, roller blades and scooters as transportation. Roller blades, skateboards, scooters and bicycles are not to be used on the school grounds. Upon entering the school grounds all students must dismount their bikes and walk them to the bike stands. Students using rollerblades, scooters or skateboards must either take the items off or pick up the items and walk on the school grounds. Students who use these items in an unsafe manner will not be allowed to bring them to school.

We want to hear about any difficulties that your child may have going to or from school. This includes problems with other children as well as any inappropriate approaches by strangers.

We also want to know who has permission to pick up your child after school. If there is to be any change in your usual routine, please call the school.

Parents who pick up or drop off children with a car should be aware that the areas near the crosswalk on Grimmett Street is a "No Stopping Zone". Oncoming drivers must be able to see the students using the crosswalk.

FIRE DRILLS There will be a minimum of six fire drills a year. Students should wear shoes at all times so they are able to evacuate the school quickly. Inside shoes should be left at school, especially during the winter months when boots are worn to and from school. In the event that the school cannot be entered, all students will meet at the Nicola Valley Institute of Technology (N.V.I.T.) grand room, located by the main entrance, and parents will be contacted.

HEALTH The staff of Merritt Bench School make a point to be aware of the general health and well-being of the students. You will be contacted if we notice anything out of the ordinary. If your child becomes ill or suffers an injury at school, you or your emergency contact will be called. Please keep your phone numbers up-to-date.

Public Health Nurse The school works closely with Mrs. Tara Sowpal who is the Public Health Nurse for this area. Mrs. Sowpal may be in touch with you regarding infectious diseases, immunizations, hearing tests along with any other school related health concern. The Public Health Nurse may be contacted by phone, through her office at the South Central Health Unit (378-9380). You may also drop off a note for Mrs. Sowpal at the school office.

Lice Please check your children's hair on a regular basis for lice. This parasite is a major nuisance in all schools in the Merritt area. Once a child has been treated with an anti-lice shampoo, and the nits have been combed out, he or she may return to school.

Medicine If your child requires the administration of any medication while he or she is at school, the nurse must be informed, your doctor must complete the required forms and the medication must be given to the principal. Children should not be sent to school with any type of non-prescription medicine.

Sleep Your children's teachers believe that it is very important for students to have adequate rest if they are to do their best in school. Boys and girls who do not have enough sleep at night are irritable, unable to concentrate and tire easily during mental or physical work.

While children differ in the amount of rest that they require each night, a good guideline is 11 to 12 hours for primary children and 10 to 11 hours for intermediate students. If your child is able to get out of bed easily each morning and is happy and alert throughout the day, he or she is probably getting enough sleep.

Injuries Staff members who have first aid training are always available to deal with minor injuries. Parents will be informed in the case of any problem that may require additional attention. Minor injuries that happen on the playgrounds will be noted and if extra attention is needed a note will be sent home with the child. For more serious injuries and concerns, parents or emergency contacts will be notified as soon as possible with recommendations for action.

Health Concerns We need to hear from parents who have a safety or health concern about any student. All adults have a duty to report concerns they may have about possible abuse or neglect of any child. The name of anyone who provides this information in good faith is kept confidential.

MERRITT BENCH ELEMENTARY CODE OF CONDUCT

GUIDE LINES FOR STUDENTS

Coming in early If you enter the school before the bell you must be under the direct supervision of a teacher at all times. You must have arranged with a teacher before you come in. You are not to come in to drop off books, instruments, back packs, etc.

If you are well enough to come to school, you are well enough to stay outside until the bell rings.

Recess and Lunch You are to go outside unless a staff member gives you permission to be in the school on that particular day. If you are well enough to come to school, you are well enough to go outside at recess and lunch.

Early Dismissal If you become ill and need to go home, you must have your parent's permission to do so. You must have permission from your teacher to call home and you must check with office staff before using the phone.

The person who picks you up must check with the office before you leave. If you leave the school early for any reason you must let both your teacher and the office know.

After School Students are expected to go directly home (or to a caregiver) when they are dismissed from school. Any students staying more than 1/2 hour or participating in a game must inform their parents. Any student who remains in the school must be under the direct supervision of a teacher at all times.

You need to make arrangements for visiting friends with your parents before you leave home in the morning. Asking to use the school phone at 3:00 for this purpose is not appropriate.

Visitors We do not allow people who are not Merritt Bench students or parents of students to be in the school or to play on the grounds. All guests must report to the office. If you are being met by your brother, sister or friends, please have them meet you outside.

Bicycles, Skateboards, Skates and Scooters These items are not to be used on the school grounds because of safety concerns. Skateboards and scooters are to be kept in the cloak areas of the classroom while they are at the school. If you use them in an unsafe way on your way to or from school you will not be allowed to bring them to school.

DISCIPLINE (Expectations for Student Behavior)

Guiding principles:

All students must feel physically and emotionally safe at Merritt Bench

Safe playground and safe working conditions are most important

All students must respect the rights of others

The school must operate in an orderly and efficient manner

These expectations apply to behavior at school, during school-organized or sponsored activities, and behavior beyond these times (including on-line behavior) that negatively impacts the safe, caring and orderly environment of the school, and/or student learning.

The following behaviors are examples of what are considered serious and will not be tolerated:

- **Fighting, bullying, threatening others or any form of violent behavior**
- **Language that is abusive or obscene – swearing**
- **Demearing racial, religious, ethnic or sexual comments**

- **Direct disobedience of a lawful request from a staff member**
- **Disruption of classes, assemblies or other school activities**
- **Stealing**
- **Deliberate damage to the building or its contents**

Merritt Bench Elementary School promotes the values expressed in the BC Human Rights Code respecting the rights of all individuals in accordance with the law – prohibiting discrimination based on race, color, ancestry, place of origin, religion, marital status, family status, physical or mental disability, gender or sexual orientation – in respect of discriminatory publication and discrimination in accommodation, service and facility in the school environment.

Any such incidents will be investigated and appropriate consequences will follow. Disciplinary measures taken by the staff will take into consideration the severity of the incident, the circumstances which led to it, and the past behavior of the students involved. **Restitution is a key factor in bringing about resolution to conflicts that may arise.**

Consequences may range from a simple reprimand to loss of privileges or to suspension from school. The most frequent consequences are of the "time-out" format.

In most cases, discipline matters are dealt with in a routine manner as the student accepts responsibility and the consequences that are applied. Parents will be contacted whenever there is a serious problem or where inappropriate behaviour continues.

Please contact your child's teacher or the principal if your child has any difficulties with the behaviour of other children or expresses concern about a disciplinary measure.

Notification Depending on the severity of the infraction the school will inform other parties as necessary. For example, parents of the student offender(s), and parents of the student victim(s) may be notified. In case of illegal activity, the R.C.M.P. will be notified. If the safety or well being of a child is in question, the Ministry of Children and Families will be notified.

Lunch Hour Difficulties A student whose behaviour during the lunch hour becomes disruptive or dangerous to other children may lose the privilege of eating lunch at school. The school reserves the right to have that student spend the lunch hour at home or under other supervision arranged by the parent off of the school grounds.

MERRITT BENCH ELEMENTARY SCHOOL DRESS CODE

The clothing that children wear to school should be **appropriate for the weather**, provide protection, allow freedom of movement, and should help students to feel positive about themselves. We encourage outdoor activity all year round and therefore request students arrive at school with appropriate clothing during the different times of the school year. Coats, boots, gloves and head covering are needed during the winter months.

Students are discouraged from wearing clothing or accessories that would inhibit normal school activities, are a distraction to others, are inappropriate for the age and stage of the child or might be a safety hazard in the school environment.

The following is intended to guide students, parents and staff in interpreting the code:

- ❑ shirts that display rude graphics or promote violence, drugs, alcohol or cigarettes must not be brought to school
- ❑ hats or other headcoverings should not be worn inside the school
- ❑ coats, rubber boots and winter boots should not be worn inside the school -students are expected to store outerwear in the cloak areas of each classroom
- ❑ halter tops or skimpy tank tops are not appropriate for normal school wear

- ❑ skirts, dresses and shorts should be longer than a student's little finger when the arm is extended straight by one's side
- ❑ "flip flop" sandals or platform shoes are a safety hazard
- ❑ singlets or muscle shirts are not appropriate for classroom wear
- ❑ students do not need to wear make-up for regular school activities
- ❑ clothing that is excessively torn or dirty may be replaced from the lost and found stock at the school
- ❑ as it is unhealthy for children to sit in wet garments, they should have outer clothing that gives protection from the elements

Jewelry The wearing of jewelry by students is discouraged. Items of value may become lost or stolen. Rings and earrings are a definite safety hazard when students are engaged in games, sports and active play. Large or dangling earrings should not be worn. Students participating with school sports teams must remove all jewelry.

Gym Strip The wearing of appropriate gym strip is required for all students. It is safer for the children and they are able to perform better. Proper clothing shows that the students are ready to participate in the activity and sets a good tone for the class. A change of clothing is a good health habit for the older students. Students will require:

- A T-shirt and/or a sweat-shirt.
- A pair of gym shorts or sweat pants
- A pair of shoes designed for athletic wear (support and traction are essential)

GUIDE LINES FOR PARENTS

It is important that parents feel comfortable about being in the school and approaching the staff. We are all working for the good of the children and we can accomplish a lot when the home and the school are communicating effectively.

Parents' Advisory Council Merritt Bench has a Parents' Advisory Council (PAC) that meets each month to discuss issues related to the operation of the school. The PAC also acts as a support group for school functions and helps organize social activities. The meetings of the PAC are open to all parents and we would like to see as many parents as possible take part.

Parents at School There will be many opportunities for parents to get involved in activities at the school. We welcome and encourage parents to come to the school and to be on the grounds at any time. It can be a valuable social time for many of you and it is interesting to see your child in another setting.

However, there are a few things that we would like to point out:

Custody School personnel cannot talk to anyone about a student unless that person is listed on the registration form. We rely on the parent who has the day-to-day responsibility for the child to inform us if a former spouse or new relationship has permission to act in the role of a parent.

Dropping Off and Meeting Students The primary teachers would like to encourage parents to leave their children at the outside door to the school. Having many adults in the hallways increases noise and congestion. If you need to talk to your child's teacher, please call to set up a convenient time when you will have his or her full attention.

Parents are encouraged to introduce themselves to other parents. In this way we can all be aware of anyone who does not have a legitimate reason to be at the school.

No Smoking or Vapour Products There is a ban on smoking and vapour products on school grounds in compliance with District Policy and Provincial Legislation. This applies to all adults, including workers, staff, visitors and parents.

Respect Profanity, rude language and unkind comments about other adults or children has no place on the school grounds.

Discipline Discipline of other children must be left to the school personnel who have the lawful authority to act. If you feel that action is necessary please see the adult on duty or another member of the staff.

GOSSIP AVOID GOSSIP AT ALL TIMES – IF YOU HAVE A CONCERN, BRING IT TO THE ATTENTION OF YOUR CHILD’S TEACHER OR THE PRINCIPAL

PARENTAL CONCERNS AND RESOLUTION OF DISPUTES

Parents having a concern about classroom practices or their child’s educational program should first deal directly with the teacher involved. If the concern is not resolved at the classroom level, then it is appropriate to go to the principal.

If a concern involves general school operation or policy, then the principal should be approached directly.

Parents whose concerns are unresolved at the school level may choose to go to the Assistant Superintendent of Schools or express their concerns to the PAC president.

The president of the Parents' Advisory Committee is able to act as a mediator or advocate as required. The president of the PAC may be approached for advice as to appropriate procedure at any stage of the complaint process.

Concerns of a general nature may be brought up at a PAC meeting. However, issues specific to one student should be handled privately. According to School Board regulations; “confidential matters related to individual personnel and pupils cannot be discussed by the School Consultative Group”.

Where more formal mechanisms for dispute resolution are required the Board has enacted Policy. These documents are available in the school office.

FIELD TRIP POLICY

Field trips are an important part of our educational program. Students are introduced to activities which are not possible in the school setting and information gathered on these trips is used to supplement classroom lessons.

Teachers are expected to keep parents informed about class field trips so that the children may come to school prepared for the trip and also so that the parent knows where their child is during the school day.

Prior to major outings parents sign a form giving permission for their child to participate on “regular” school journeys. Regular is defined as having no extraordinary risk involved and taking place within the Merritt area during the school day. Special permission forms are required for activities venturing away from Merritt or for overnight trips.

At times, the school may ask for a donation to cover entrance fees and transportation. In the case of major trips, students will be expected to participate in fund-raising activities. No student will be prohibited from going on an educational trip due to lack of funds.

In most cases, parents will be welcome to come along to assist the school staff with supervision and organization. The number of seats available for parents will depend on the mode of transportation.

The code of conduct on a school journey is similar to that of the regular school program. Students are expected to:

- Come prepared both for the weather_and for the planned activities

- Pay attention to directions and instructions from adults
- Act in a safe manner while on the journey

Students will not be excluded from out-of-school experiences because of lack of funds. However, staff have the authority to exclude a child from a journey where that child's behaviour in class or on previous journeys indicates that behaviour or safety may be of concern. In certain cases, teachers may outline conditions which must be met for a child to go on a trip - eg. participation in class or completion of preliminary work.

In some circumstances, participation may be determined by a lottery or on a first come basis.

Adult Volunteer Policy

1. **All volunteers in a supervisory capacity are required to complete a criminal record check.** Please consider having the criminal record check completed early as completion of the criminal record check may take some time. The check is free and forms can be obtained from our office.
2. Parents interested in service as volunteers may contact the school principal or classroom teacher. Staff members will select individual volunteers as required.
3. Volunteers are considered visitors to the school and must report to the school office on arrival.
4. Volunteers are expected to take direction from the staff member who requested their service and expectations will be discussed with the staff member in charge.
5. The Principal and teachers are responsible for student learning and discipline. Volunteers are responsible for working under the direction of staff to assist in students' learning and to provide support during school activities.
6. Volunteers must comply with the standards of conduct expected of school staff. Any matters concerning students and staff are confidential and must not be discussed.
7. Volunteers will inform staff members if they are unable to attend.
8. Volunteers are expected to work within the designated areas outlined by the staff member in charge. The staff room is a place for adults only.

Parent Drivers Parents who volunteer to assist with transportation on field trips must complete a volunteer driver form. Details regarding minimum insurance coverage, seating and liability are provided on this document. The volunteer driver forms must be completed at the office before any driving can take place. **All volunteers in a supervisory capacity (including parent drivers) are required to complete a criminal record check and have a drivers' abstract on file with the school.** Please consider having these documents completed early as completion of the criminal record check may take some time. The check is free and forms can be obtained from our office. Drivers' abstracts may be obtained from your Insurance Agent and also are free of charge.

STUDENT CLASS PLACEMENT POLICY

The process of making up classes for each school year begins in June and is based on the best information available at that time. The staff of the school meets to go through a process that considers the following factors. This list is **not** in priority order:

- Provincial requirements regarding class size and configuration
- the best use of special student assistants
- the teaching style of the teacher and the learning style of the student

- the number of years the child has been with the teacher.
- the child's physical and social maturity
- male/female balance in each class
- the balance of leaders and athletes in each class
- the child's interactions with other students
- the child's needs in social, emotional, and behavioural areas
- the child's intellectual development level
- the age of the child
- student friendships
- the child's need for learning assistance or special education services
- the placement which will afford the child the greatest chance of success
- siblings in the same class

Note: The number of students in each class is determined by the contract between the teachers and the School District.

The exact teaching assignments for the staff will not be known until September. Students will be told who their new teacher is during the first week back to school. There may be a need to adjust classes through the first few weeks of the term. We are a small school and therefore endure many restrictions when it comes to staffing (split classes are common). We encourage all parents to be patient and understanding when it comes to the placement of their child in a particular class. When it comes time for adjusting, the parent is often the one who has the hardest time. The child makes new friends and bonds with the teacher and is usually fine in a day or so.

VISITOR POLICY

All persons who are not either students, parents or guardians must check in at the office as soon as they enter the building.

Parents and volunteers who are working in the building are asked to check in at the office.

Any person found in the building may be expected to be challenged as to their identity and purpose for being here.

Former students are discouraged from being on the grounds during the school day. If they are meeting friends or siblings they must do so outside after school. In the case of former students wishing to visit a previous teacher - the teacher will be called to the office to meet the visitors - or, they will be escorted to that teacher.

The outside playground supervisors or staff on duty will question individuals found on the grounds to determine if they have a legitimate reason for being here. If not, then they will be asked to leave.

In general, we do not allow non-students to be on the grounds between the hours of 8:00 a.m. to 3:30p.m

Merritt Bench Elementary School is a safe, caring school when we know our rights and take responsibility for our actions. Have a great year everyone!
